

## KOMAND FOR HOMEKIT

Komand is a text based remote control for your HomeKit smart-home.

With only a few keystrokes, you can control the devices of your smart-home.

Start typing the name of a service, color or scene - just press enter to trigger the action.

External keyboards are supported too utilising the arrow keys to navigate through suggestions.

Users of Alfred and Quicksilver will feel home right away.

Home-automation suffers from its' high complexity.

Komand is an efficient way to control your smart-home with a unique and innovative user-interface experience.

Supported services:

- Lights
- Outlets
- Switches
- Fans
- Lock mechanisms
- Rooms
- Scenes

## KOMAND FOR HOMEKIT

### EASTER EGG

Once activated in the iOS settings.app Komand understands some hidden commands.

Simply enter "Hidden commands" to view a list.

The commands are a homage to the interaction of young Matthew Broderick in the 1983 movie WarGames.

LIST GAMES  
FALKENS-MAZE  
ARMAGEDDON  
JOSHUA  
HELLO
